

⊘ Do not lubricate

lubricate inside here

Notes:

1. Caliper seals, o'rings, etc., are installed with a special silicone based grease. Petroleum based grease is not compatible with these seals and o'rings. **DO NOT USE PETROLEUM BASED GREASE OR OIL.**
2. This is a floating caliper. **DO NOT PAINT GUIDE BOLTS AND GUIDE BOLT SLEEVES.** Paint will inhibit caliper movement on guide bolt sleeves and on the caliper mounting bracket.
